March 10, 2020

Dear Guests:

We understand the fear the world is experiencing concerning the spread of COVID-19. In order to ensure the health and safety of our guests, the Nature's Classroom team is continuing to take measures to mitigate the potential for any illness or disease to spread within the facilities where we operate. As we have always done, the Nature's Classroom team continue to thoroughly clean the facility after each group departs and perform upkeep throughout their stay.

Nature's Classroom has increased its precautionary measures, including increasing the frequency of cleaning and disinfecting commonly touched objects such as door handles and other high traffic areas/touchpoints. Dishes and food service equipment are thoroughly cleaned after each use. All cups, silverware, and any other instrument that comes in contact with the mouth are washed three times. Guests are provided hand soap in common area bathrooms, and hand sanitizer dispensers in high traffic areas. All guests are encouraged to thoroughly wash hands before entering the dining hall.

Nature's Classroom staff are committed to providing a safe experience to all guests and are continuing to stay informed of new recommendations and guidelines for cleaning and sanitizing our facilities as they are made available by the Centers for Disease Control and Prevention (CDC), The World Health Organization (WHO) as well as state and local health departments.
